The diagram illustrates a column chromatography setup. A vertical line represents the column, with horizontal lines extending from it to indicate different fractions. The top fraction is labeled 134. Below it is a cluster of two circles labeled 118.1. The next fraction down is labeled 116.1. The fourth fraction is labeled 114.1. The bottom-most fraction is labeled 112.1. Each fraction is represented by a cluster of three circles.
